

ALTEC EXPORT MODELS ADDENDUM INFORMATION

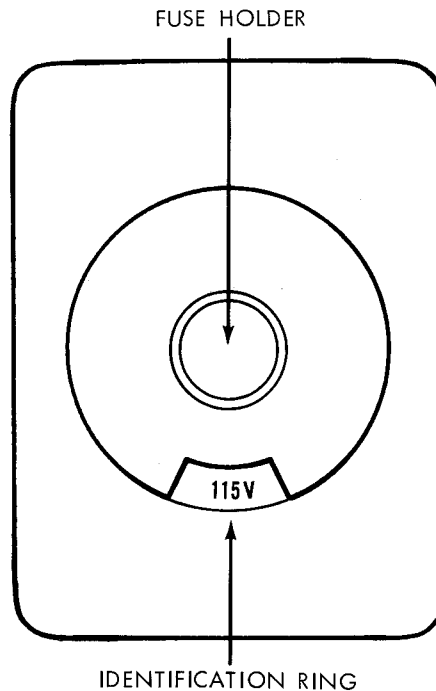

Figure 1. Voltage Selector

VOLTAGE SELECTOR

A universal voltage selector, complete with voltage identification ring, and fuse holder located in center. Selects a maximum of six voltages; 100V, 115V, 127V, 150V, 220V and 240V.

To select proper voltage, remove fuse holder and adjust dial.

POWER CONNECTIONS

Equipped with appropriate export type power cord and plug.

CAUTION

SELECT THE PROPER VOLTAGE REQUIRED PRIOR TO PLUGGING IN THE SPEAKER OR CONSOLE, AND BEFORE TURNING THE POWER SWITCH TO THE ON POSITION.

NOTE

Export Models of the 1206AX, 1210AX and 1214AX Portable Control Consoles do not have the 250 watt receptacles found in the domestic model consoles.
