

8906 Bolero

893B Corona

## Altec's 893 B Corona and 890C Bolero

The higher efficiency bookshelf designs from Altec provide full clean sound with any amplifier power. While capable of handling room rendering volumes, the low level listening performance is exceptional. From the manufacturer of "The Voice of the Theatre", big sound in a convenient size.

### Specifications

	Corona	Bolero
Frequency Response:	50-18,000 Hz	40-20,000 Hz.
Power Rating:	45 watts*	50 watts*
Impedance:	8 ohms	8 ohms
Crossover Frequency:	2500 Hz	2000 Hz
Dimensions:	22"H x 12 1/4"W x 9 1/2"D 558mm-H x 371mm-W x 301mm-D	25 5/8"H x 14 5/8"W x 11 7/8"D 650mm-H x 371mm-W x 301mm-D
Shipping Weight:	22 pounds 48 Kg	52 pounds 114 Kg

\*May be used with amplifiers having up to equal continuous power rating in home entertainment use.

**The Corona** is an attractive two-way bookshelf system that delivers excellent sound throughout a wide frequency range. It has a continuous power rating up to 45 watts but may be used with amplifiers rated as low as 10 watts per channel. A high compliance 10-inch speaker is mounted in an infinite baffle to provide optimum bass response. High frequencies are reproduced crisp and clear by an Altec 3-inch direct radiating speaker. Distortion is extremely low. The Corona's dividing network is tailored to the overall system, using a crossover frequency of 2500 Hz. It includes high frequency attenuation in 3 dB steps above 2000 Hz. The enclosure finish is a rich, hand-rubbed walnut and features a contemporary styled snap-on grille.

**The Bolero** is one bookshelf system that fills even the largest rooms with full natural sound. It features the 406-8C high-compliance woofer with large voice coil and massive magnet structure for highest efficiency and clean lows. An Altec 10-inch free-suspension phase inverter, a matched loudspeaker cone assembly in its basket without magnet or voice coil, augments the speaker wave forms for effortless low-end reproduction. Above 2000 Hz, a new extended-response compression driver coupled to a cast aluminum horn spreads silky highs throughout any room. A three-position shelving control adjusts the high frequencies to accommodate your room acoustics. The Bolero's finish is a hand-rubbed walnut and its exclusive snap-on fretwork grille adds a sophisticated touch of three-dimensional sculptured curves.
